PROJECTS

Records Management System

- Designed internal application that digitized routing for almost 1000+ incoming, outgoing, internal and acknowledgement receipts monthly, cutting manual processing by 70%

ServiceDesk Management System

- Designed internal application for creating HR service requests of almost 400+ internal and external employee and replaced manual email-based requests

GCG Website

- Contributed to the development of a public-facing website for the agency, building more than 10 pages/features/modules to streamline public access to agency services, reduced walk-in inquiries and centralized previously scattered info

Membership Management System

- Designed application that stores members personal data and replaced spreadsheet-based tracking

EDUCATION

Bachelor of Science in Industrial Engineering
Polytechnic University of the Philippines – Biñan Campus

LICENSE AND CERTIFICATION

Civil Service Examination Passer **August 11, 2024**
